

LOVIISA PORT PLANNING WITH SWECO AND CITY OF LOVIISA 15.1.2020

Loviisa has currently an external expert, Sweco, preparing a more detailed plan of the port area including the port extension area.

This includes a more specified cost plan for the suggested activities.

A very successful planning session was held in Loviisa hosted by Markus Lindroos, Technical Manager of Loviisa City and Laura Sokka, Engineer at Sweco.
